Patent Interference Proceedings

Agency: Patent and Trademark Office, Commerce.
Action: Notice of Proposed Rulemaking.
Summary: The Patent and Trademark Office (PTO) proposes to amend its rules of practice in patent interference cases. The U. S. District Court for the District of Columbia recently decided *Kochler v. Mustonen*, Civil Action No. 90-1074 (D. D. C. Apr. 23, 1991). The District Court held that PTO practice regarding taking of testimony abroad was not clear. PTO rules require that a testimony period be set. The rules also require that testimony be taken during the testimony period. Rule 684 authorizes testimony to be taken abroad. However, Rule 684 requires that a motion be filed for leave to take testimony abroad and that the motion be filed before the close of a party's testimony period. The District Court suggested that a motion to take testimony abroad, filed in PTO on the last day of the testimony period, could be considered timely even though taking of the testimony might occur after the testimony period. By this notice, PTO proposes to continue to authorize the filing of a motion to take testimony abroad. However, a party would have to file the motion within a time such that the testimony could be taken during the testimony period set under PTO Rule 651.
Dates: Comments must be submitted on or before July 12, 1991. A public hearing will not be held.
Addresses: Address written comments to Box 8, Commissioner of Patents and Trademarks, Washington, D. C. 20231, marked to the attention of Fred E. McKelvey, Solicitor. Written comments will be available for public inspection in Suite 918, on the 9th

floor of Crystal Park II, located at 2121 Crystal Drive, Arlington, Virginia.

For Further Information Contact: Fred E. MsKelvey by telephone at (703) 557-4035 or by mail marked to his attention and addressed to Box 8, Commissioner of Patents and Trademarks, Washington, D. C. 20231.

Supplementary Information: The PTO conducts interference proceedings to determine who as between two or more applicants for patent or one or more applicants and one or more patentees is the first inventor of a patentable invention. As part of its proofs in an interference, a party may request leave to take testimony abroad. 37 CFR § 1.684 (1990).

The U. S. District Court for the District of Columbia recently decided *Kochler v. Mustonen*, Civil Action No. 90-1074 (D. D. C. Apr. 23, 1991). The District Court held that PTO practice regarding taking of testimony abroad was not clear. PTO Rule 651 (37 CFR § 1.651 (1990)) requires that a testimony period be set. Rule 651 also requires that testimony be taken during the testimony period. Rule 684 (37 CFR § 1.684 (1990)) authorizes testimony to be taken abroad. However, Rule 684 requires that a motion be filed for leave to take testimony abroad and that a motion be filed before the close of a party's testimony period. The District Court suggested that a motion to take testimony abroad, filed in PTO on the last day of the testimony period, could be considered timely even though taking of the testimony might occur after the testimony period. By this notice, PTO proposes to continue to authorize the filing of a motion to take testimony abroad. However, a party would have to file the motion within a time such that the testimony could be taken during the testimony period set under PTO Rule 651.

If the changes proposed herein are ultimately adopted, it is anticipated that the Examiner-in-Chief assigned to an interference would specify in an order setting testimony when a motion to take testimony abroad (§ 1.684) would have to be filed. In the absence of setting of a specific time by the Examiner-in-Chief, the motion would have to be filed promptly after a testimony period is set so that it could be acted upon and testimony taken and completed within the testimony period. The rules, as proposed to be amended, would continue the policy announced in *Ziegler v. Baxter v. Natta*, 157 USPQ 432 (Comm'r. Pat. 1968) (motion to take testimony abroad must be promptly filed after testimony period is set).

Section 1.651(a) is proposed to be revised by adding to the end of subsection (a) the language "(testimony includes testimony to be taken abroad under § 1. 684)." This language would make clear the fact that testimony includes testimony which might be taken abraod.

Section 1.651(d) is proposed to be revised by adding (1) the language "including any testimony to be taken abroad under § 1.684," (2) the language "and completed," and (3) the sentence "A party seeking to extend the period for taking testimony must comply with § 1.635 and § 1.645(a)." This language and sentence would make clear that a party would have to complete all testimony within the testimony period and would need to move to extend the testimony period if sufficient time was not available to complete all testimony, which would include testimony to be taken abroad. The period would be extended only if the party made the showing required by § 1.645(a).

Section 1.684 is proposed to be revised by (1) deleting from paragraph (a) the language "prior to the close of the party's appropriate testimony period or within such time as may be set by an examiner-in-chief," (2) adding the language "promptly after the testimony period is set," and (3) adding to paragraph (a) the language "taking of testimony abroad must be completed within the testimony period set under § 1.651." The effect of these changes would be to require a motion to take testimony abroad to be filed within sufficient time to be acted upon and testimony taken abroad within the testimony period.

Other Consideration: The proposed rule changes are in conformity with the requirements of the Regulatory Flexibility Act (5 U. S. C. 601 et seq.), Executive Orders 12291 and 12612 and the Paperwork Reduction Act of 1980, 44 U. S. C. 3501 *et seq.*

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that these proposed rule changes will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U. S. C. 605(b)). The principal impact of these proposed changes is to clarify the need for taking testimony abroad during the testimony period. The proposed rule changes include no additional or increased fees. Substantive rights are not adversely affected.

The Office has determined that these proposed rule changes are not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. Because most of the proposed changes do not change burdens, there will be no major increase in costs or prices for consumers; individual industries; Federal, state or local government agencies; or geographic regions. There will be no significant productivity, or innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The rule change will not impose any additional burden under the Paperwork Reduction Act of 1980, 44 U. S. C. 3501 *et seq.*

The Office has also determined that this notice has no Federalism implication affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

Problems with Telephones at South Tower Building

The Trademark Operation continues to receive reports that its telephone system is not working effectively since the recent move to the new South Tower Building. Specifically, on occasion, the phones continue to ring without being answered; or the callers receive an intercept signal indicating that the dialed number is not a working government number or that all circuits are busy. Employees have also reported difficulties with transferring calls within the office.

In response to these reports, the Office is working with AT&T and C&P Telephone, as well as investigating the in-house MERLIN II® telephone system, in order to find and correct the problems.

The MERLIN II® telephone system was chosen for the new site with efficiency, as well as cost-saving, in mind. The system is designed to minimize the need for clerical employees to interrupt their work to answer phone calls for others. Instead, an automated voice message instructs the caller using a touch-tone phone to enter the extension of the desired party. The Examining Attorneys and Post Registration Examiners have been encouraged to provide their telephone number, including extension number, at the end of all Office actions.

As you may know, the phone numbering system has been logically sequenced so that the number of each law office can be ascertained without looking it up in a directory. The root phone number for the law offices is (703) 308-9100. The phone number of each law office can be constructed by replacing the last two digits of the root number with the number of the law office. So that the telephone number for Law Office 3 is (703) 308-9103; Law Office 4 is (703) 308-9104; and so forth up to Law Office 15, which is (703) 308-9115.

The extension numbers within each law office are also logically designed. All Managing Attorneys have extension 21 or 22; Examining Attorneys have extensions ranging from 30 to 40; the Support Staff Supervisor has extension 11; and the docket clerk has extension 15.

Other important telephone numbers to note are:

Office of the Director of TMEO ..	(703) 308-9000
Post Registration	(703) 308-9500 ext. 40
ITU Unit	(703) 308-9500 ext. 30
TTAB	(703) 308-9300
Assistant Commissioner for TM ..	(703) 557-3061
Voicebox	(703) 557-8747

The Office is determined to provide the best possible service to its consumers and, essential to this goal, an effective, efficient telephone system is of primary concern. In order to achieve this goal, it would be extremely helpful for anyone continuing to experience telephone problems to contact Tom Howell at (703) 308-9111, ext. 20, and relay to him specific information concerning particular incidents where telephone service is less than satisfactory.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to libary, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions*, and provides technical staff assistance in their use to aid the public, in gaining effctive access to information contained in patents. CASSIS (Classification And Search Support Information System); which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is urged to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
